J.S. ENGINEERING
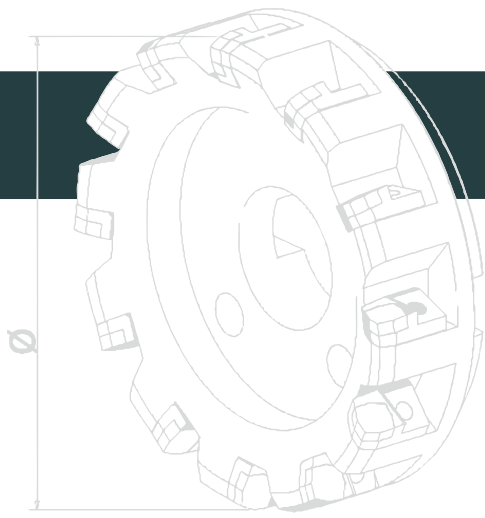

Manufacturer of Indexable Tool Holders

J.S. Engineering, a reliable name for manufacturing Indexable cutting tools. Established in the year 2007, J.S. Engineering since then has been providing professional services in designing, manufacturing and supplying tools and tool holders to a various spectrum of customers.

We are well equipped to take up the above task on behalf of the customer and attain maximum benefit through advanced method and modern technologies. We have state of the art high specification machineries for manufacturing and inspecting the tools. We have an experienced and dedicated team of professional designers and skilled worksmen who are capable to execute the job within the stipulated time and also keeping an eye on the economical factor.

Catering the customers on pan India level we have patrons in almost all states of the country. Our clientele includes the lead runners in the industrial fraternity.

J.S. Engineering is an ISO 9001:2008 certified company for Quality Management System with a strong USP of delivery schedule and prove outs of the manufactured tools.

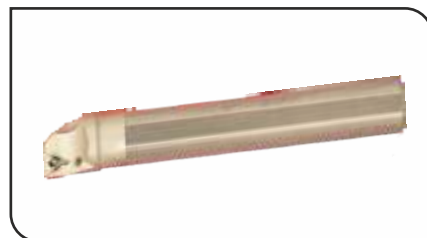

1. TOOL HOLDER IN ALL TYPES OF CLAMPING LIKE :

- a. Top Clamping
- b. Lever Clamping
- c. 'D' Clamping
- d. Screw Clamping
- e. 'M' Clamping

2. BORING HOLDER IN ALL TYPES OF CLAMPING LIKE :

- a. Top Clamping
- b. Lever Clamping
- c. 'D' Clamping
- d. Screw Clamping
- e. 'M' Clamping
- f. Damped boring bar with carbide body etc.

3. GROOVING TOOLS

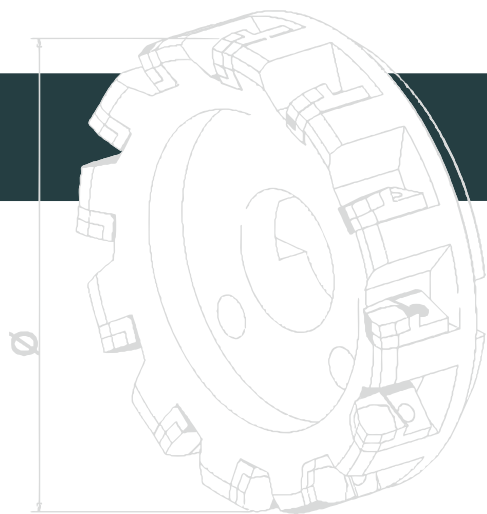

4. SPECIAL CARTRIDGES

5. ALL TYPES OF ISO CARTRIDGES

J.S. ENGINEERING
Manufacturer of Indexable Tool Holders

Spot Face Tools

**INTEGRAL TYPE BORING BAR ROUGH / FINISH COMBINATION BORING BARS IN
BT30, BT40, BT50, ISO Taper SK Taper, CAT Taper, MT Taper, HSK 63, HSK100**

**Finish boring bar in microboring cartridge to suit any
make microbore i.e. Sandvik, Mitsubishi, Rigibore etc**

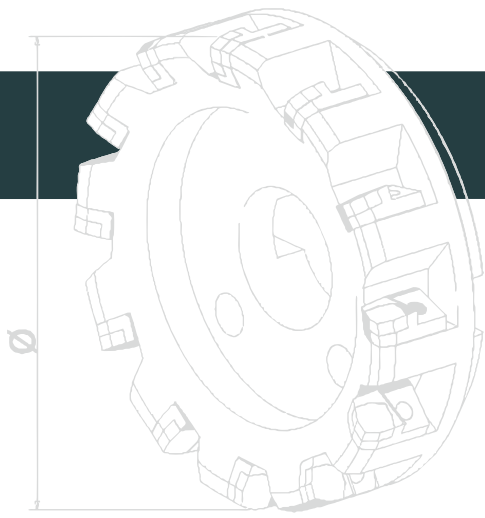

**Adaptor for face mill
cutter with BT taper**

**Damped boring bar
for higher L/D/**

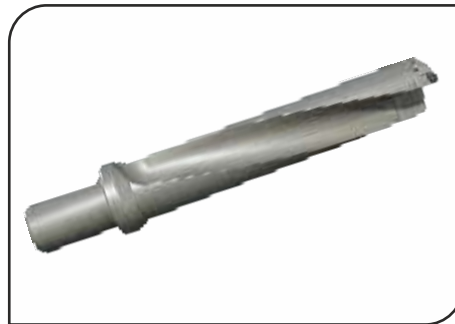

JSE

J.S. ENGINEERING
Manufacturer of Indexable Tool Holders

**Indexable drills upto L/D 10 with various type of make inserts
Combination drill cum Chamfer / spot face etc.**

Threading tool

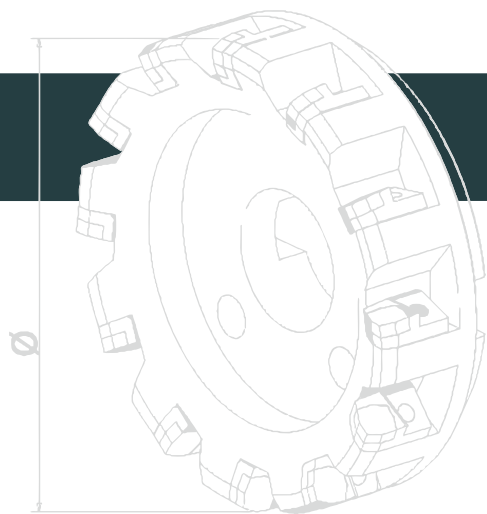

Modular End Mill

T-Slot Cutter

JSE

J.S. ENGINEERING
Manufacturer of Indexable Tool Holders

MILLING CUTTERS

Full Side & Face Milling Cutter

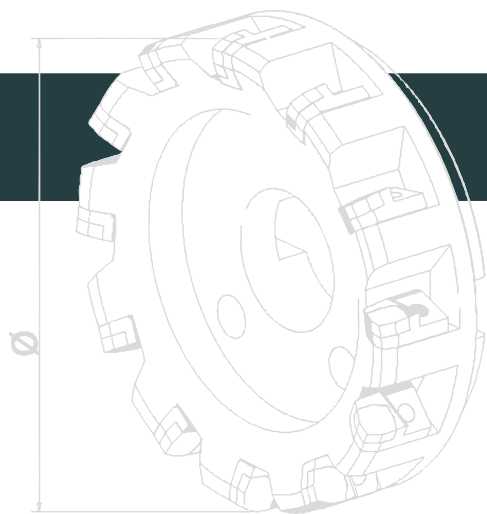

Face Milling Cutter upto 450 dia

Endmill cutters with various types of make Inserts

JSE

J.S. ENGINEERING
Manufacturer of Indexable Tool Holders

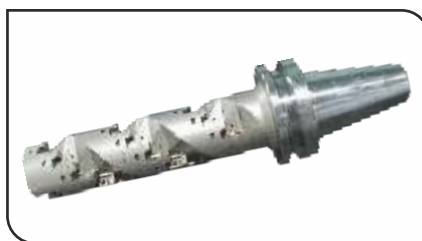

Special Shell Mill Cutter

**Special Valve Seat
Chamfer tool'**

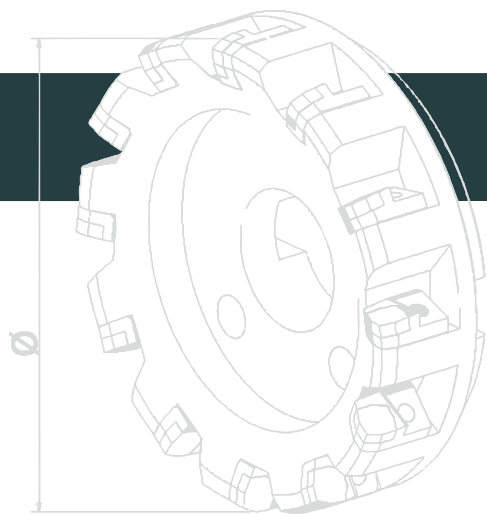

Spl Profile Ball Nose Cutter

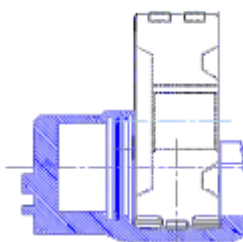

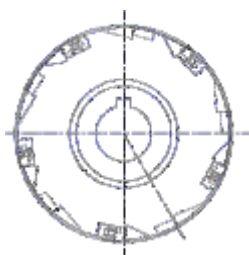

**Tools manufactured & inspected
on High Specification Machines & Systems**

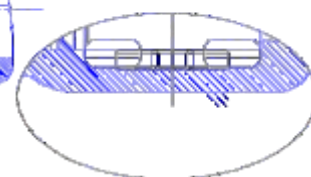

JSE

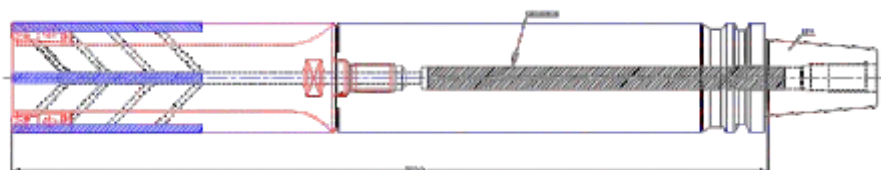

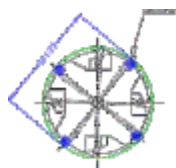

J.S. ENGINEERING
Manufacturer of Indexable Tool Holders

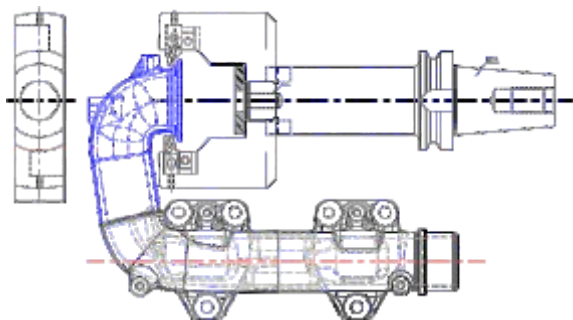

**Special Profile
Milling Cutter**

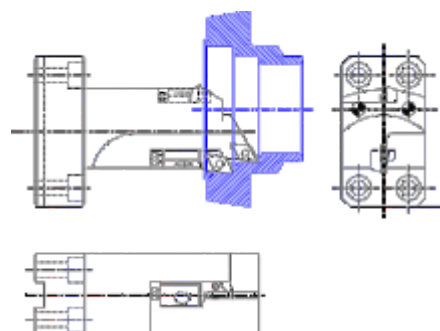

Special Rough Boring Bar

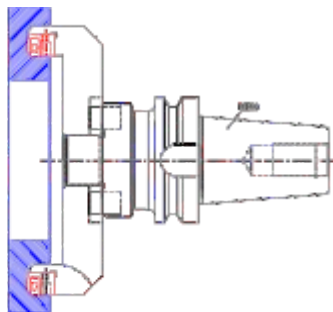

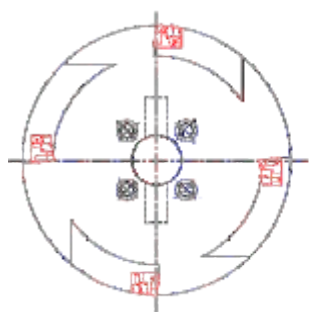

Special O.D. Turning cum Chamfer Tool

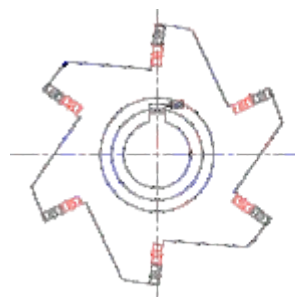

Special Finish cum Chamfer Tool

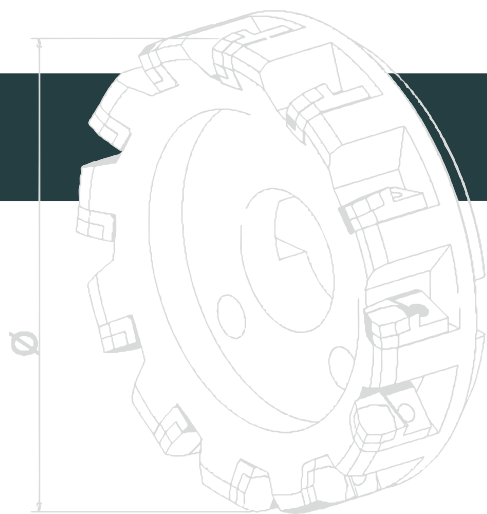

Special Trepaning cum Grooving Tool

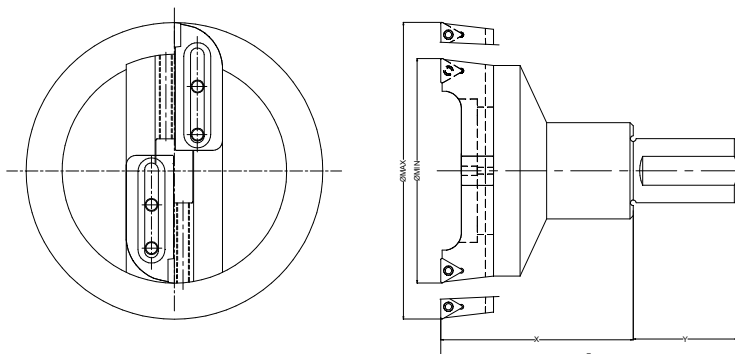

Special Slot Milling Cutter

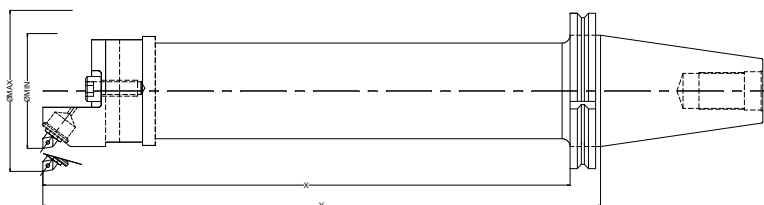

ADJUSTING ROUGH BORING TOOLS

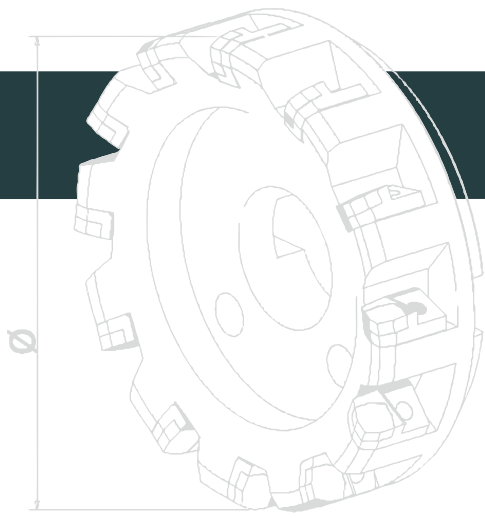

TOOL DESCRIPTION	RANGE	ADAPTOR
ADJUSTING ROUGH BORING BAR Ø40 TO 60	40 TO 60	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING ROUGH BORING BAR Ø60 TO 80	60 TO 80	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING ROUGH BORING BAR Ø80 TO 100	80 TO 100	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING ROUGH BORING BAR Ø100 TO 120	100 TO 120	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING ROUGH BORING BAR Ø120 TO 140	120 TO 140	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING ROUGH BORING BAR Ø140 TO 180	140 TO 180	BT50/BT40/CAT50/ISO50/ETC

ADJUSTING FINISH BORING TOOLS

TOOL DESCRIPTION	RANGE	ADAPTOR
ADJUSTING FINISH BORING BAR Ø40 TO 60	40 TO 60	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING FINISH BORING BAR Ø60 TO 80	60 TO 80	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING FINISH BAR Ø80 TO 100	80 TO 100	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING FINISH BORING BAR Ø100 TO 120	100 TO 120	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING FINISH BORING BAR Ø120 TO 140	120 TO 140	BT50/BT40/CAT50/ISO50/ETC
ADJUSTING ROUGH BORING BAR Ø140 TO 180	140 TO 180	BT50/BT40/CAT50/ISO50/ETC

OUR MAJOR CUSTOMERS

BHARAT FORGE

PRODUCT LIST

1. ISO and SPL Turning Tool Holders
2. ISO and SPL Cartridges
3. Indexable drills std as well as spl with combinations.
4. Boring bars for roughing and Finishing integral with BT, ISO, HSK, CAT etc. tapers.
5. Dampened Boring Bars with Carbide Rod and pads for critical machining.
6. Spl. Boring bars for valve seat machining with fine angle adjustments.
7. OD Turning boring bars.
8. All types of Milling cutters, with centre cutting, Helical etc.
9. Special Face milling cutter in CNMG unused corner.
10. Full and half side and face milling cutters with staggered teeth.
11. Side lock adaptors with different tapers.
12. Special adaptors for holding slitting cutters.
